

**KID'S COMMUNITY COLLEGE®**

## **SCHOOLS REMAIN CLOSED UNTIL MAY 1ST**

March 30, 2019 - Today Florida's education commissioner recommended school districts remain closed until May 1. The move applies to district and charter schools.

The state does not have the formal authority to shut down schools, which are constitutionally operated by school boards. Kid's Community College® charter schools will follow the recommendation of the Commissioner and the Hillsborough County School Board and close its school until May 1st.

KCC is here for our student families and we appreciate their continued flexibility as we continue to respond to the changes caused by COVID-19. Our associates remain dedicated to student achievement and family support. We will continue to support our students through our remote learning plan and interact with them through virtual face-to-face connections.

Athletic and other extracurricular activities will remain canceled until further notice.
